PROFESSIONAL SUMMARY

Computer Science (Data Science) undergraduate with expertise in Python, SQL, DBMS, and Generative AI, seeking opportunities in Software Development, Data Analytics, and AI-driven roles.

TECHNICAL SKILLS

Programming: Python, SQL, Java (Basic), C (Basic)

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, DBMS

AI & Data: Generative AI Fundamentals, Natural Language Processing, Data Analytics

EDUCATION

B.Tech – Computer Science (Data Science):

Dadi Institute of Engineering and Technology (2023–2027) | CGPA: 8.35

Intermediate: 75.4% | Kendriya Vidyalaya No. 2, NSB

SSC: 85.2% | Kendriya Vidyalaya No. 2, NSB

INTERNSHIPS

- **Python Full Stack Developer Virtual Internship – Eduskills (AICTE):** Gained exposure to full-stack development, databases, and software development workflows.
- **Generative AI Virtual Internship – Google Cloud (AICTE):** Explored Generative AI, large language models, prompt engineering, and cloud AI solutions.
- **Process Mining Virtual Internship – Celonis (AICTE):** Learned process mining, workflow optimization, and data-driven business process analysis.

CERTIFICATIONS

- **The Joy of Computing Using Python – NPTEL (Elite + Silver)**
- **Natural Language Processing – NPTEL (Elite)**
- **Data Analytics and Job Simulation – Deloitte**
- **Data Analytics and Visualization – Accenture**

LEADERSHIP & ACTIVITIES

- **Member, Computer Society of India (CSI):**
Participated in technical learning and professional development activities.
- **Volunteer, College Volunteering Club:**
Supported event coordination and student engagement initiatives.
