

PILLA PRUDHVI SAI MANIKANTA

Email id: pillaprudhvi1735@gmail.com

LinkedIn: <https://www.linkedin.com/in/pilla-prudhvi-sai-manikanta-2a320130a>

Contact no: (+91) 7075083393

PROFESSIONAL SUMMARY:

Motivated Electronics and Communication Engineering undergraduate with hands-on experience in Embedded Systems, IoT, Cloud Computing, AI/ML, and Android Development through 6+ virtual internships. Proficient in Python, Java, C, and PCB designing. Passionate about research, development, and building smart, real-world technology solutions. Seeking an entry-level role in software development, embedded systems, or data analytics to leverage technical skills and deliver measurable impact.

CAREER OBJECTIVE:

I am a person who thrives off positive results and seeks opportunities to continue learning and exploring Technology. Looking forward to get absorbed in research and development to secure a challenging position where I can explore the best of my potential to achieve my goals and ambitions.

EDUCATIONAL QUALIFICATION:

S.NO	QUALIFICATION	INSTITUTION	BRANCH	YEAR	PERCENTAGE
1	B. Tech (pursuing)	DADI Institute of Engineering and Technology, Anakapalle	Electronics and Communication Engineering	2023-2027	8.0 (CGPA)
2	Intermediate	Sri Ramanuja Vidya Mandir Junior College, Visakhapatnam	M.P.C	2021-23	8.15 (GPA)
3	10th grade	Dr. K.K.R Gowtham School, Pendurthi	CBSE	2020	82.8%

PROFESSIONAL STRENGTHS:

- Possess excellent communication skills and ability of multi-tasking.
- Problem solving and detail oriented.
- Possess good management and leadership qualities.

PERSONAL SKILLS:

- Punctual, Hardworking, Self-disciplined, Confident.
- Good at building interpersonal relationships.
- Flexible and adaptable to any kind of situation, Self-motivated.

TECHNICAL SKILLS:

- **Programming Languages:** C, Java, Python
- **Cloud & IoT:** AWS IoT, Vertex AI, AutoML, TensorFlow
- **Data & Analytics:** Python (Pandas, Matplotlib, Seaborn), Microsoft Power BI
- **Mobile Development:** Android (Kotlin, Android Studio)
- **Hardware:** Printed Circuit Board (PCB) designing, Microcontroller programming

WORKSHOPS:

- A Three-days **EduSkills TECH CAMP** on "**Google AI-ML**" from 12 Dec to 14 Dec 2024 in **Dadi Institute of Engineering & Technology, Anakapalle** — gained exposure to AI/ML concepts and Google Cloud tools alongside 50+ engineering peers.

INTERNSHIPS:

- **Microchip Embedded Systems** | EduSkills (AICTE) | Oct – Dec 2025 | 10 weeks

Gained practical exposure to microcontroller programming and embedded application development. Successfully completed 5+ embedded module assignments, improving firmware understanding by applying real-world peripheral interfacing techniques.

- **AWS IoT Cloud Engineer** | EduSkills (AICTE) | Jul – Sept 2025 | 10 weeks

Developed practical knowledge of AWS IoT Core, cloud architecture, and IoT device management. Configured and deployed 3+ IoT data pipelines using AWS services, enabling real-time data streaming and cloud-based monitoring solutions.

- **Data Analytics with Python & Power BI** | EduSkills (AICTE) | 10 weeks

Performed data wrangling and exploratory data analysis on real datasets using Python (Pandas, Matplotlib, Seaborn). Built 2+ interactive Power BI dashboards, reducing manual reporting effort and enabling data-driven business insights.

- **Google AI-ML** | EduSkills (AICTE) | 10 weeks

Gained hands-on experience with TensorFlow, Vertex AI, and AutoML for building and deploying intelligent ML models. Completed end-to-end ML pipeline tasks, achieving practical proficiency in model training, evaluation, and deployment on Google Cloud.

- **Google Android Developer** | EduSkills (AICTE) | 10 weeks

Developed Android applications using Kotlin and Android Studio, covering UI design, activity lifecycle management, and Google API integration. Built and deployed 2+ functional Android apps demonstrating core development skills.

- **Image Classification & Object Detection** | DADI Institute of Engineering & Technology | Oct – Dec 2024 | 10 weeks

Studied and implemented various image classification and object detection algorithms. Applied deep learning models to classify images with improved accuracy, gaining foundational expertise in computer vision techniques.

PROJECTS:

- **AUTOMATIC WEATHER SENSING CLOTHESLINE** | IoT-based Hardware Project

Designed and developed an automated clothesline system integrating a rain sensor, humidity sensor, and light-dependent resistor (LDR) with a microcontroller. The system autonomously retracts/extends the clothesline based on real-time weather conditions, eliminating 100% manual intervention and demonstrating practical IoT and embedded systems skills in a smart home application.

PERSONAL PROFILE:

Name	: Pilla. Prudhvi Sai Manikanta
Father's Name	: Pilla. Rama Surya Narayana
Mother's Name	: Pilla. Lakshmi
Date of Birth	: 09-08-2006
Gender	: Male
Marital Status	: Unmarried
Contact No.	: 7075083393
Address	: 2-165, Main Road, Relligavirammampeta, L.Kota Mandal, Vizianagaram (535161) Andhra Pradesh
Email id	: pillaprudhvi1735@gmail.com

DECLARATION:

I, hereby declare that all the information furnished above is true and correct to the best of my knowledge.
